Italian Milan cylindrical lithium battery millivolt

Overview

What is Italy's first large-scale battery manufacturer?

Italvolt is Italy's first large-scale battery manufacturer, launching a 45 GWh facility in Scarmagno by 2025. Specializing in NMC lithium-ion cells for EVs and energy storage, it utilizes XFC and solid-state technologies, supporting sustainable energy and creating 3,000 jobs.

How big is the italvolt battery plant?

Scheduled to open in 2025, the Italvolt site will cover more than 300,000 m², is expected to employ around 3,000 people and have a production capacity of up to 45 GWh per year, making it one of the largest factories of its kind in the world. Italvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory.

How will italvolt support Italy's Green industrialisation ambitions?

Italvolt intends to honour Italy's important industrial legacy by supporting the country's green industrialisation ambitions, and by delivering battery cells which will help drive decarbonisation across a variety of industries. Italvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory.

What types of lithium ion cells does italvolt manufacture?

Italvolt specializes in manufacturing next-generation lithium-ion cells in three distinct formats: pouch, prismatic (blade), and cylindrical. These cells incorporate nickel, manganese, and cobalt (NMC) chemistry with silicon anodes, designed to meet various industrial requirements.

What is Italy's largest battery cell factory?

Italvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory. The battery cell factory will focus on creating new opportunities for re-skilling and upskilling workers from Italy's automotive industry.

How many battery energy storage systems will Italy deploy in 2023?

After deploying only 20MW grid-scale battery energy storage systems each year in the past few years, Italy plans to deploy 800 to 900MW grid-scale battery energy storage systems in 2023-2024, ranking second only to the United Kingdom in scale.
