

## SolarInvert Energy Solutions

# Italy Milan Energy Storage Battery Project

## Overview

---

Energy storage insiders who spoke at an event at the NetZero Milan trade show said Italy is preparing to lead the way in large-scale battery use – courtesy of the national MACSE energy storage auction in September 2024 – at a time when under-deployment is driving low prices. Which projects have been submitted to the Italian Ministry of energy?

The 111MW project in Lombardia and the 97MW project in Puglia have been submitted to the Italian Ministry of Energy for approval. The 187MW project in Piemonte will be submitted for approval later this year.

How much energy does Italy need?

The 187MW project in Piemonte will be submitted for approval later this year. Terna (the Italian TSO) estimates in the last Adequacy Report for the Italian Electricity System that Italy will need around 27GW of energy storage capacity by 2033 to add a planned 120 GW+ of renewable generation to the Italian grid.

How does Metlen support Italy's energy transition?

METLEN Energy & Metals continues to reinforce its commitment to supporting Italy's energy transition with the implementation of two new battery energy projects, which secured contracts in the Capacity Market auctions for the 2025/26 period. Specifically, METLEN has secured 15-year contracts for the development of the following projects:.

How many projects does Metlen have in Italy?

METLEN's extensive portfolio in Italy includes over 180 projects, totaling 3.7 GW, spread across 15 of the country's 20 regions, and continues to invest in cutting-edge technologies and innovative solutions to drive the energy transition forward.

Which battery energy storage systems are awarded in the cm 2025 procedure?

25 MW, 3-hour Battery Energy Storage Systems (BESS) in the Apulia region (Erchie Storage), awarded in the CM 2025 procedure. 25 MW, 3-hour Battery Energy Storage Systems (BESS) in the Apulia region (San Severo Storage), awarded in the CM 2026 procedure.

Does Terna have energy storage capacity?

Moreover, a new mechanism for Terna to procure in advance energy storage capacity is currently under review and will be finalized in the coming months, to underpin Italy's target of 71GWh of new grid-scale battery storage by 2030 under the "Fit-for-55" EU framework (reducing greenhouse emissions by 55% by 2030).
