Jakarta Wind and Solar Energy Storage Power Station

Overview

What is a 100 MW solar project?

The 100 MW solar project covers five plots with 24 power generation units, spanning approximately 80 hectares. With a total installed capacity of 100.78 MW, it will be Indonesia's largest ground mounted solar power station. POWERCHINA is responsible for the design, procurement, construction and commissioning of the project.

What is TJS 100 mw ground mounted solar PV farm project?

Employees celebrate the grid-connection of TJS 100 MW Ground Mounted Solar PV Farm Project. The 100 Megawatts Ground Mounted Solar PV Farm Project at the Karawang Industrial Park in Indonesia, constructed by POWERCHINA, was successfully connected to the grid on July 8.

What is PLN Nusantara power & Sembcorp?

This advanced infrastructure is designed to enhance the overall efficiency and reliability of the energy supply. PLN, through its subsidiary PLN Nusantara Power, is the majority owner of the project, while Singapore-based Sembcorp is a joint development partner. PLN will also act as the offtaker for the energy generated.
