# Johannesburg South Africa approves photovoltaic energy storage project

## Overview

---

Paris, December 15, 2023 – TotalEnergies and its partners are launching construction of a major hybrid renewables project in South Africa, comprising a 216 MW solar plant and a 500 MWh battery storage system to manage the intermittency of solar production. Will Gauteng have a solar park?

The provincial government of Gauteng, South Africa, plans to set up a solar park with a capacity of at least 800 MW. Premier Panyaza Lesufi says 100 MW could be connected to the grid from April. The Gauteng provincial government in South Africa is moving ahead with a new 800 MW solar project.

Is Gauteng moving ahead with a new 800 MW solar project?

The Gauteng provincial government in South Africa is moving ahead with a new 800 MW solar project. According to Gauteng Premier Panyaza Lesufi, six independent power producers have been appointed to develop the installation. The board of Sibanye-Stillwater, a South African mining and metals processing group, has approved the land leases.

When will 100 MW solar power be installed in South Africa?

Premier Panyaza Lesufi says 100 MW could be connected to the grid from April. The Gauteng provincial government in South Africa is moving ahead with a new 800 MW solar project. According to Gauteng Premier Panyaza Lesufi, six independent power producers have been appointed to develop the installation.

How many MW will South Africa's solar power plant deliver?

With an installed solar capacity of 540 MW of PV, and a battery storage capacity of 225MW/1,140MWh, the plant is designed to deliver 150 MW of dispatchable power from 5 am to 9.30 pm year-round to the national grid under a 20-year power purchase agreement with South Africa's national power utility company, Eskom.

Are large energy storage projects coming to South Africa?

It's great to see more large energy storage projects coming online in South Africa. Just 2 months ago, Eskom unveiled another large battery storage project. Eskom's Hex site is specifically designed to store 100MWh of energy, enough to power a town such as Mossel Bay or Howick for about five hours.

Is totalenergies launching a hybrid renewables project in South Africa?

Download the Press Release (PDF) Paris, December 15, 2023 – TotalEnergies and its partners are launching construction of a major hybrid renewables project in South Africa, comprising a 216 MW solar plant and a 500 MWh battery storage system to manage the intermittency of solar production.
