# Juba Communication Base Station Power Supply Plant

## Overview

---

What happened to Juba power plant in South Sudan?

Juba power plant in South Sudan is set to cease its operations following a notice issued by Ezra Construction and Development Group (ECDG), which generates and supplies Juba city with electricity.

Who financed the Juba electricity project?

The Bank funded the USD 38 million expansion and rehabilitation of the electricity distribution network in Juba. The project was primarily financed through a grant. It was implemented by the South Sudan Electricity Corporation, which is the power utility created by the Government.

Why did Ezra shut down its Juba power plant?

Ezra said in a statement that it will cease operating its power plant in the next few days, in pursuit of delayed US Dollars payment from the government of South Sudan. “Ezra Construction and Development Group (ECDG), hereby gives notice that the Juba power plant will cease to operate in the next few days.

Does ecdg have a power plant in South Sudan?

ECDG has built and is operating a power plant for the national grid of South Sudan. The company made an extensive investment by the end of 2019 to make available over 230,000,000 kWh by the end of 2020. Over 64,000,000 kWh was consumed in 2020 alone by over 20,000 customers marking a successful inaugural year.

How is Ezra power plant built?

Ezra power plant is built with capital expenditure from investors and loans from financiers. The company had managed to secure a one-year grace period from investors, which expired in January, 2021.
