Kenya Mombasa Rain Protection Power Station Generator BESS

Overview

Who is the implementing agency for the Kenyan battery energy storage system?

The Kenya Electricity Generating Company PLC (KenGen), has been designated to be the Implementing Agency for the Kenyan Battery Energy Storage System (BESS), which is part of the Kenya Green and Resilient Expansion of Energy (GREEN) program, funded by the World Bank.

Will Kengen implement a 100MW Bess project in 2024?

KenGen has announced that it will implement an initial 100MW BESS project as part of the World Bank funded GREEN program in early 2024. The BESS project has been identified as a possible solution to increased proportion of intermittent energy to the Kenyan power system and energy curtailment during off peak hours.

Which country will implement the Kenya Green & Resilient expansion of Energy (Green) program?

The Republic of Kenya (the Recipient) will implement the Kenya Green and Resilient Expansion of Energy (Green) Program Phase 2 as set out in the Financing Agreement and the Project Agreement.¹ The International Development Association (the Association) ², has agreed to provide the financing for the Program, as set out in the referred agreement(s).

What is the Bess project?

The BESS project has been identified as a possible solution to increased proportion of intermittent energy to the Kenyan power system and energy curtailment during off peak hours. The BESS project will reduce the impact of intermittency on the grid and store power for use during peak hours.
