

## SolarInvert Energy Solutions

# Kenya safe energy storage lithium battery

Higher Anti-Rust Performance  
Lower Internal Impedance

## Overview

---

Kenya Power last year announced plans to set up a grid-level 100 MW lithium-ion BESS by 2024 to store power at low demand to be used during peak power demand. Are lithium-ion batteries safe for electric energy storage systems?

To cover specific lithium-ion battery risks for electric energy storage systems, IEC has recently been published IEC 63056 (see Table A 13). It includes specific safety requirements for lithium-ion batteries used in electrical energy storage systems under the assumption that the battery has been tested according to BS EN 62619.

Does Kenya need battery energy storage?

A battery energy storage. The question of power storage has become critical as Kenya embraces e-mobility which requires reliable power supplies. The Energy and Petroleum ministry targets to mainstream power storage in its electricity master plan as the country's renewable energy generation expands.

What are the opportunities for utility scale battery energy storage systems?

There are opportunities for Utility Scale Battery Energy Storage Systems (BESS) Two thirds of Kenya's electricity is generated from renewable/clean energy sources. Of this, wind power accounts for 15% (435MW) while solar accounts for just under 2% of total installed capacity (51MW) with these numbers expected to continue to grow.

Can a 50MW wind power plant be built in Kenya?

Separately on September 9, 2019, the US Trade and Development Agency awarded a grant to Kenya's Craftskills Energy Limited for a feasibility study by an American firm, Delphos International for the development of a 50MW wind power plant with integrated battery storage capacity in Kenya.

How much Bess is needed in Kenya?

Kenya Power projected that more than 480MW of BESS are required across different locations in the country, such as western Kenya, where there is inadequate transmission capacity at peak times as well as at substations along Kenya's coast.
