

## SolarInvert Energy Solutions

# Kyrgyzstan bn uninterruptible power supply

## Overview

---

What is uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS power supply system) has been widely used in modern life, providing effective emergency power for various electronic devices, protecting them from power instability interference, and ensuring their normal operation.

Which companies does the government control in Kyrgyzstan?

It exercises the government's controlling stake in key enterprises operating in the electricity sector including JSC Electric Power Plants, JSC Chakan HPP; JSC National Electrical Grid of Kyrgyzstan, the four distribution companies and Bishkek's district heating service provider JSC BishkekTeploset.

Can the Central Asian power system improve Kyrgyzstan's power system?

Increasing power exchanges through the Central Asian Power System (CAPS) offer considerable potential to help alleviate Kyrgyzstan's growing power system reliability, resilience and imbalance issues in a timely, proven and cost-effective manner.

What is JSC national electrical grid of Kyrgyzstan?

JSC National Electrical Grid of Kyrgyzstan, which is responsible for all aspects of national power system operation including management of generation dispatch and power flows on the main transmission system to ensure reliable, secure and stable delivery of electricity services to all consumers.

Why does Kyrgyzstan have a power shortage?

The combination of hydro dependence and ageing electricity infrastructure greatly increases Kyrgyzstan's exposure to potential power supply shortages and power system failures, especially when the power system is under additional stress during periods of water scarcity.

Does Kyrgyzstan depend on hydroelectric plants?

The sector's heavy dependence on hydroelectric plants is reflected in domestic power production levels, with hydropower typically representing around 90% of Kyrgyzstan's annual power output during normal hydrological periods. The figure below shows current generating capacity and recent trends in power production in Kyrgyzstan.
