

SolarInvert Energy Solutions

Laayoune mobile energy storage vehicle equipment manufacturer

Overview

What does Qiyuan do?

Focusing on advanced technology development and energy services in green transportation sector, Qiyuan aims to become the leader in the field of energy and transportation integration, empowered by innovation, technology and digitalization.

What is Huijue's home energy storage solution?

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes. It reduces electricity bills and serves as emergency backup power, providing a seamless, intelligent, and one-stop energy solution.

What is Qiyuan's first overseas battery charging and swapping project?

Qiyuan's first overseas battery charging and swapping project was implemented in Indonesia, marking the first step of battery swapping heavy duty truck business into the world market. Qiyuan unveiled a highly integrated tri-source heat pump, providing a better solution to the problem of low-temperature endurance of electric heavy-duty trucks.

Who is Qiyuan green power?

energy service provider specializing in new energy commercial vehicles. Qiyuan Green Power dedicates itself to the R&D of equipment such as electric heavy duty trucks, electric construction machines, electric ships and electric agricultural machines, and also the R&D and manufacture of CTB battery systems.

What is Qiyuan energy control system?

Qiyuan's intelligent integrated energy control system was evaluated as the highest-level “international leading” by the China Electricity Council and won

the first prize for energy innovation of the China Energy Research Society.

What is Qiyuan's L4-level autonomous driving project?

This milestone event was widely reported by major media outlets, including CCTV and Xinhua News Agency. Qiyuan, in collaboration with ecosystem partners, established a pilot route for L4-level autonomous driving electric heavy duty trucks at Yangshan Port, Shanghai.

 Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 100% Peak Output Power
- 2 MPPT Trackers, 100% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

 Intelligent Simple O&M

- IP68 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPDs: prevent lightning damage
- Battery Reverse Connection Protection

 Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 30ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- ARC Function (Optional): when an arc fault is detected the inverter immediately stops operation
