# Lead-acid battery cabinet color

## Overview

---

What color is battery acid?

The Color of Battery Acid Battery acid is usually an oily dark color. What should I do if I get battery acid on my tongue?

Take the following steps if you have ingested battery acid : 1) Call the emergency services immediately. 2) Swill your mouth out with cold water and continue to do so until help arrives.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.

What are the safety requirements for a lead accumulator?

ENERPOWER has developed a project that adapts to the safety criteria referred to by the current legislation CEI 21-6 / December 1990 for the installation of lead accumulators. Adequate natural ventilation (in the charging conditions indicated by ENERPOWER).

What kind of paint do you use on kitchen cabinets?

The cabinets are painted with epoxy paint with a total thickness of no less than 50 microns with colors to be defined in the RAL series. The ENERPOWER painting standard is RAL 7016 (OTHERS ON REQUEST). Cabinets and drum elements shipped loose packed and to be assembled on site.
