

SolarInvert Energy Solutions

Lebanese communication base station battery manufacturer

Overview

What is a telecom battery backup system?

A telecom battery backup system is a comprehensive portfolio of energy storage batteries used as backup power for base stations to ensure a reliable and stable power supply. As we are entering the 5G era and the energy consumption of 5G base stations has been substantially increasing, this system is playing a more significant role than ever before.

Should telecommunication operators invest in a telecom battery backup system?

Investing in a telecom battery backup system is always one of the priorities for telecommunication operators in the 5G era. Sunwoda 48V telecom batteries have a capacity covering 50Ah-150Ah, which can easily meet the power backup needs of macro and micro base stations.

Does Leoch manufacture lithium batteries?

Leoch manufactures premium Lithium batteries to cover any renewable energy requirement. Aiming to deliver a robust product portfolio that will cover your requirements in the long term, we target to offer unprecedented value to your needs.
