Lighting backup battery cabinet base station price

Overview

How many RF modules are in a base station cabinet?

The base station cabinet contains as many as six RF modules. These multicarrier modules support both Huawei's GSM-R 5.0 and the company's enterprise LTE (eLTE). Use of this multi-radio base station (and similar indoor base stations) maximizes versatility while minimizing site deployment costs.

How much power does a Huawei base station use?

APM30+ RFC +TMC+BB,DRFU (S444)/ GRFU (S121212): 4-hour standby (184Ah) Description: The power consumption of the transmission cabinet is less than 200W. Huawei's fourth-generation base station includes: indoor macro base station BTS3900, outdoor macro base station BTS3900A, distributed base station DBS3900.

What is a bts3900a RF base station?

One of the most compact outdoor macro base stations in the industry, the BTS3900A features a large, scalable capacity and multi-mode applications that meet the requirements of long-distance railways. The base station cabinet contains as many as six RF modules.

What is a macro base station?

This outdoor macro base station supports both GSM-R and LTE — the ideal solution for railways that want to prepare for evolution to an LTE broadband network.
