Lithuania industrial-grade UPS uninterruptible power supply

Overview

What are uninterruptible power supplies (UPS)?

Read more Uninterruptible Power Supplies (UPS) ensure continuity of supply by converting the DC voltage from a battery or battery bank to an AC voltage with the requested amplitude and frequency in case of power outages. Depending on application requirements.

What is an industrial uninterruptible power supply system?

Industrial uninterruptible power supply systems (UPS Systems) include core technologies to cover industrial equipment. Our systems offer applications ranging from a few hundred watts to massive Multi-Mega Watt Parallel UPS installs inclusive of voltage regulations, voltage correction, sag correction, surge suppression and harmonic mitigation.

What are the different types of industrial UPS power supply systems?

600V, 480V, 415V, 400V, 380V, 230V and 208V With the latest sophisticated features installed, we can ensure higher levels of efficiency and load protection from multiple issues pertaining to power. At the same time, we assure cost-effectiveness in our industrial UPS power supply systems to safeguard your investments in these critical systems.

What is an industrial UPS system?

The industrial UPS systems produced by SCU, a professional UPS supplier, are specially designed for industrial application with high performance, high efficiency and high protection level. The industrial UPS system provides uninterrupted high-quality industrial uninterruptible power supply for modern manufacturing.

Who makes UPS systems?

“UPS Technologies group” distributes UPS systems produced by the world-famous company BORRI – top-level technological systems that ensure

uninterruptible power supply in any line of business.

Why should you choose Eaton industrial UPS?

In large industrial facilities, power failures are highly detrimental for the operational efficiency. Our Eaton industrial UPS systems (Uninterruptible Power Supply) can mitigate such effects with our advanced functionalities and features. These extensive services include extended power back up and protection against several power quality issues.
