# Malawi Hospital UPS Uninterruptible Power Supply

## Overview

---

Why do hospitals need an uninterruptible power supply (UPS)?

That's why we're proud to offer our uninterruptible power supply (UPS). Our UPS provides an uninterrupted power supply to hospitals and other medical facilities, protecting critical equipment, data, and personnel since 2001 for over 500 projects. With our UPS, hospitals can rest easy knowing that their power source is secure and dependable.

What is ups for medical centers & hospitals?

UPS for medical centers and hospitals deliver backup power in emergencies and ensure power conditioning for critical equipment. [Learn more.](#)

Why do hospitals need ups?

Data Centers: Hospitals have several data centers that store critical patient data, and a power outage can lead to loss of data and affect patient care. UPS systems are essential for maintaining critical power supply to these departments in a hospital to ensure that patient care is not disrupted. ● Why the hospital UPS should be transformer-based?

.

What types of medical equipment require uninterrupted power supply?

Radiology: Radiology equipment such as CT Scanners, MRI machines, and X-Ray machines require uninterrupted power supply to prevent any loss of data.  
Hemodialysis Center/Room: Hemodialysis is a medical procedure that is used to remove waste and excess fluid from the blood of patients with kidney failure.

What is a medical grade UPS system?

This UPS (uninterruptible power supply) Systems provide full DIN EN 60601-1 compliance while providing reliable battery backup and surge/line noise

protection for sensitive medical equipment such as respirators and EKG machines, as well as computers and imaging equipment. Medical-Grade UPS Systems.

Why should you use ups for medical equipment?

An interruption in power to sensitive equipment during its operation could damage the machine or require the entire procedure to be repeated, delaying critical care. UPS for medical equipment ensure essential diagnostic tools are readily available – without interruption – while conditioning the power for sensitive equipment.
