

## SolarInvert Energy Solutions

# Malaysia EK 2025 Energy Storage Battery

**100-430KWH**

**230|400V**

## Overview

---

Will Eve energy build a new battery project in Malaysia?

Eve Energy plans to build a new battery project in Malaysia to further expand its footprint in Southeast Asia. The Chinese battery giant plans to build a project in Malaysia for the production of energy storage batteries, with an investment of no more than RMB 8.65 billion (\$1.2 billion), according to a stock exchange announcement on June 27.

Will Eve Energy's Malaysia factory be a benchmark project?

Mr. Liu Jincheng, Chairman and Founder of EVE Energy Co. Ltd, stated that, "EVE Energy's Malaysia factory, as the first step in its global expansion, will focus on creating an international benchmark project.

Where will EV battery factory be built in 2023?

In addition to Malaysia, Eve Energy announced in June 2023 its plan to invest over \$1 billion in Hungary to build an electric vehicle (EV) battery factory. The project is located in Debrecen, Hungary, with a construction period of four years, according to a previous announcement by the company.

Who is Eve energy storage Malaysia?

The project will be executed by its wholly-owned subsidiary in Malaysia, Eve Energy Storage Malaysia Sdn Bhd, located in Kulim City, Kedah State, as an expansion of its existing production facility. The construction period will not exceed 2.5 years, with a land area of about 484,000 square meters.

What is Eve energy's energy storage battery project?

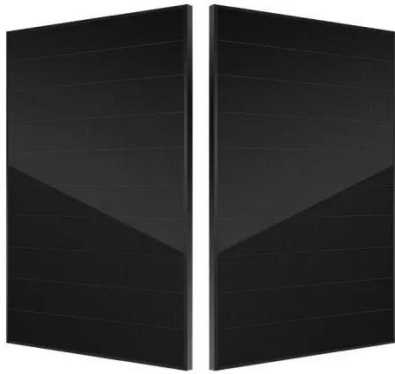

The energy storage battery project is an expansion of Eve Energy's existing facility in Malaysia, which began operations in February this year. The project will facilitate the company's overseas expansion, and will also help it mitigate the risks posed by escalating international trade friction, Eve Energy said.

Who makes EV batteries in China?

Eve Energy is one of China's largest battery manufacturers, with an EV battery installation volume of 2.09 GWh in May, accounting for a 3.66 percent market share and ranking sixth, according to data released earlier this month by the China Automotive Battery Innovation Alliance (CABIA).
