# Malaysia Watt Power Company Energy Storage

## Overview

---

What is Malaysia's first utility-scale battery energy storage system?

Malaysian utilities company Sarawak Energy has commissioned what is described as the nation's first utility-scale battery energy storage system (BESS). The 60 MW/82 MWh BESS, which was first energized in Dec 2024, shares the site with the soon-to-be-phased-out Sejingkat Power Plant, first commissioned in 1998.

Are battery energy storage systems becoming a reality in Malaysia?

The utilities sector in Malaysia is witnessing significant advancements in battery energy storage systems (BESS), evolving from concept to reality with notable projects underway. The first large-scale BESS project is currently being constructed in Sabah, a pivotal development for the country's energy landscape.

What is energy storage system in Malaysia?

Outlook of energy storage system in Malaysia Energy storage is one of the emerging technologies which can store energy and deliver it upon meeting the energy demand of the load system.

Who is Sarawak Energy?

Sarawak Energy, commissioner of the 60 MW/82 MWh battery energy storage system (BESS), is one of the biggest utilities serving Sarawak, a Malaysian territory on Borneo island. Malaysian utilities company Sarawak Energy has commissioned what is described as the nation's first utility-scale battery energy storage system (BESS).

Can energy storage be adopted in Malaysia?

Overview of the progress and outlook of energy storage adoption on both new and second life energy storage in Malaysia. Potential benefits of energy storage in terms of economic cost or reliability within the Malaysian

distribution network. Barriers and challenges on the deployment of energy storages within the Malaysian grid system.

What is a 20 megawatt battery energy storage system (BESS)?

Government of Malaysia, in line with the vision to promote Renewable Energy in the electricity mix to 60% by 2030, a 20 Megawatt (MW) Grid-Scale Battery Energy Storage System (BESS). This project was inaugurated, in the presence of the Minister of Energy and Public Utilities, Georges Pierre Lesjongard, this morning, at the Amaury Sub-station.
