Marseille photovoltaic solar panel factory

Overview

Could a 5 GW PV cell factory help France reindustrialize?

French industrial company Carbon plans the construction of a 5 GW PV cell and module factory in Southern France. Carbons's integrated gigafactory project for photovoltaic cells and modules in Fos-sur-Mer, in the Provence-Alpes-Côte d'Azur region, aims to contribute to France's ambition for reindustrialization.

Where is the Gigafactory for photovoltaic products located?

The gigafactory for photovoltaic products shall be built on approximately 60 hectares of industrial facilities at the Grand Port Maritime de Marseille (GPMM), in the heart of the industrial port zone of Fos-sur-Mer, in the Provence-Alpes-Côte d'Azur region, within the territory of the Aix-Marseille-Provence Metropolis.

Should France and Europe reposition themselves in the photovoltaic value chain?

France and Europe must quickly reposition themselves in the photovoltaic value chain to avoid shifting from one dependence to another. This is a concrete illustration of our desire for reconquest”, Agnès Pannier-Runacher, French Minister of Energy Transition said.

Will a new PV module factory come online in 2025?

The goal is simple: to map out the PV module supply channels to the U.S. out to 2026 and beyond. French PV manufacturing startup Carbon has chosen a location for a proposed cell and module factory to come online in 2025.

What is PV moduletech Europe 2024?

PV ModuleTech Europe 2024 is a two-day conference that tackles these challenges directly, with an agenda that addresses all aspects of module supplier selection; product availability, technology offerings, traceability of

supply-chain, factory auditing, module testing and reliability, and company bankability.

Is carbon a good news for French & European photovoltaic industry?

This is a concrete illustration of our desire for reconquest”, Agnès Pannier-Runacher, French Minister of Energy Transition said. "This announcement by Carbon is good news for the French and European photovoltaic industry that we aim to revitalize.
