

## **SolarInvert Energy Solutions**

# **Middle East RV Solar System Solution**

## Overview

---

What is Saudi Arabia's Red Sea project?

Saudi Arabia's Red Sea Project is making headlines with the construction of the world's largest photovoltaic-energy storage microgrid. Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, this ambitious project is set to revolutionize sustainable energy solutions in hospitality.

Which countries are launching solar energy projects?

Projects in the pipeline are now tendered in Oman, Kuwait, Tunisia and countries including Pakistan and Iraq are engaging their first large utility size projects. Renewable energy usage has been growing significantly over the past 12 months. This trend will continue to increase as solar power prices reach grid parity.

Will Huawei fusion solar power Red Sea city's off-grid energy needs?

Huawei's FusionSolar Smart String Energy Storage Solution will power the Red Sea City's off-grid, clean energy needs. The Red Sea Project, a key part of SaudiVision2030, is now the world's largest microgrid with 1.3GWh storage capacity.

When will a 500 MW solar project be commercially operational in Oman?

The 500 MW Ibri II Solar Independent Solar Project was awarded in early-2019 and is expected to be commercially operational in June 2021. Petroleum Development Oman (PDO) signed a 23-year PPA agreement for the 105 MW Amin Solar PV project in early 2019. Commercial operation is scheduled for May 2020.

How does the Middle East & North Africa strategy affect renewables?

Within the Middle East and North Africa (MENA) region, the increased industrial activity and drive towards renewables is reflected in each country's strategy. Continuous population growth and economic development have

placed pressure on existing power assets and in some cases, created a significant gap between electricity production and demand.

How much solar power does Shams Dubai have?

Shams Dubai achieved a 125 MW of installed capacity in residential, commercial and industrial buildings in 2019. Floating PV DEWA has issued an RFP appointing consultants to study, develop and construct floating solar PV plants in the Arabian Gulf.
