

SolarInvert Energy Solutions

Middle East lithium battery customization

Overview

What is the market size of lithium in Middle-East and Africa?

The market for Lithium in Middle-East and Africa is expected to grow at a CAGR of over 10% during the forecast period. Major factors driving the market studied are accelerating demand for electric vehicles and growing usage and demand from the portable consumer electronics.

Who are the key players in the Middle-East and Africa lithium market?

The Middle-East and Africa Lithium market is consolidated, with the top five players accounting for major share of the market. The key players in the market include, Albemarle Corporation, SQM S.A., Tianqi Lithium, Orocobre Limited Pty Ltd, and FMC Corporation.

Which country is expected to dominate the lithium market?

By application, battery segment is expected to account for the largest share owing to increasing usage of lithium for the production of lithium batteries. By Country, Saudi Arabia is expected to dominate the market during the forecast period. The Middle-East and Africa Lithium market report includes:..

What are the opportunities for the lithium recycling market?

Recycling of lithium and its batteries is expected to offer various lucrative opportunities for the growth of market. By application, battery segment is expected to account for the largest share owing to increasing usage of lithium for the production of lithium batteries.

What is lithium used for?

Lithium is majorly used in battery applications for the production of lithium batteries. The battery application segment accounted for the largest share of the Middle-East and North Africa lithium market in 2019. Lithium batteries can be categorized into two segments, namely, disposable and rechargeable.

What are the different types of lithium batteries?

Lithium batteries can be categorized into two segments, namely, disposable and rechargeable. Disposable lithium batteries use lithium in the metallic form as an anode. These batteries have a long life (high charge density) when compared to other standard batteries.
