Mobile company outdoor base station

Overview

What is a 5G small cell base station?

5G Small Cell indoor and outdoor 'all-in-one' radio access for private 5G wireless networks. 5G Small Cell Base Stations (Micro Cell, Femtocell) offer advanced features and “stand alone” capability for private networks.

What is x4000 5G SDR small cell outdoor base station?

X4000 5G SDR Small Cell Outdoor base stations enjoy great flexibility, high performance as well as very low cost of operation and ownership. "Stand Alone" operation is possible which enables the 5G Base station to connect remote terminals without need for external network elements.

What is a x4000 5G base station?

"Stand Alone" operation is possible which enables the 5G Base station to connect remote terminals without need for external network elements. Custom designed for private 5G mobile networks using 5G FR1 radio spectrum. The X4000 5G 'All-in-One' includes Radio Unit (RU), Distributed Unit (DU) and Centralised Unit (CU).

What is a mobile offshore base?

Mobile offshore base (MOB), sometimes called a joint mobile offshore base (JMOB), is a concept for supporting military operations beyond the home shores, where conventional land bases are not available, by deploying on the high seas or in coastal waters, in-theater multipurpose floating base assembled from individual platforms.

Why should you choose a 5G base station?

Besides, the station can provide 7x24h and “plug and play” 5G private network services. With the wide application of ZTE's 5G nomadic base stations, the network will better adapt to differentiated services, and bring better user experiences.
