

SolarInvert Energy Solutions

Moldova energy storage project construction

Overview

How can Moldova improve the energy sector?

National regulatory framework (both primary and secondary) improved in line with Moldovan energy commitments, ensuring that national authorities are better prepared and can respond to emergency situations in the energy sector and to the needs of the most vulnerable energy users;.

Does Moldova have gas storage facilities?

Moldova currently does not have operational gas storage facilities. However, the government is considering two possible sites for geological storage in the Zagarancea-Mânzesti-Unghenii de Jos villages area and in the Cantemir district. No concrete decisions have been taken on these developments.

How does Moldova share energy data?

Moldova shares energy data through five annual International Energy Agency (IEA)/Eurostat/UN Economic Commission for Europe (UNECE) joint questionnaires.

Does Moldova have energy security?

Despite acceptable energy security levels in Moldova in 2019, the country faces exposure to gas supply shock risks due to its reliance on Russia for all of its gas via Ukraine. Two major supply disruptions occurred in 2006 and 2009 due to disputes between the two countries.

When did Moldova join the Energy Community?

Moldova joined the Energy Community as a full-fledged member in March 2010. Moldova, together with the other contracting parties, has the following tasks and obligations: The Energy Community *acquis communautaire* consists of roughly 25 legal acts.

Does Portugal support battery energy storage projects?

Portugal has awarded grant support to around 500MW of battery energy storage system (BESS) projects, using EU Recovery and Resilience Plan (RRP) funding, a bloc-wide scheme that has supported energy storage across the continent.
