

## SolarInvert Energy Solutions

# Monitoring solar power supply system in Monterrey Mexico

## Overview

---

Is Monterrey a good location for solar power generation?

Monterrey, Nuevo León, Mexico (latitude: 25.6554, longitude: -100.3258) is a highly suitable location for solar power generation due to the substantial amount of energy that can be produced from installed solar panels throughout the year.

How much solar power does Monterrey have?

Seasonal solar PV output for Latitude: 25.6554, Longitude: -100.3258 (Monterrey, Mexico), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that set of coordinates/location from NASA POWER (The Prediction of Worldwide Energy Resources) API: Average 6.98kWh/day in Summer.

Why should you choose a solar panel manufacturer in Mexico?

Mexico's solar energy sector is experiencing rapid growth, driven by rising demand for clean energy and strong government support. As the country continues to embrace renewables, choosing the right solar panel manufacturer in Mexico has never been more crucial—whether you're a developer, distributor, or EPC contractor.

Who makes the best solar panels in Mexico?

Profile: IUSASOL is a leading Mexican manufacturer known for its commitment to local production and affordable solutions. They offer good quality panels with shorter warranties. 10. Solartec Location: Puebla, Puebla, Mexico  
Products & Services: Monocrystalline and polycrystalline solar panels, solar systems, and technical support.

How many solar PV locations are there in Mexico?

So far, we have conducted calculations to evaluate the solar photovoltaic (PV) potential in 147 locations across Mexico. This analysis provides insights into

each city/location's potential for harnessing solar energy through PV installations. Link: [Solar PV potential in Mexico by location](#).

Is Mexico a good place for solar energy?

The Renewable Energy Foresight 2011–2025 published by the International Renewable Energy Agency (IRENA) classifies Mexico as one of the best regions in the world for solar energy applications due to its geographical location between the latitudes of 14° and 33° in North-America.
