

SolarInvert Energy Solutions

Montevideo 20kw inverter parameters

Overview

What is a 208 volt inverter?

Wide range 200-820 volt DC to three phase 208-480 volt AC on grid inverter operates at 50Hz/60Hz low frequency, 20kW rated capacity, transformerless design and high power density, LCD main parameters, with wide MPPT voltage, easy to install, is a perfect solution for grid tied solar power system.

What is a 20kW grid tie solar inverter?

Pure sine wave 20kW rated power grid tie solar inverter with competitive price and excellent quality, 2 MPPT, maximum input voltage to 850V, three phase 240V/ 380V/ 460 AC rated output voltage. The protection degree of the 20kw grid tie inverter is IP65.

What is the protection degree of 20kW grid tie inverter?

The protection degree of the 20kw grid tie inverter is IP65. MPPT efficiency can reach 99.5% with perfect self-detection and self-protection function. 3 phase on grid solar inverter is a good choice for home or industrial use.
