Montevideo Backup Uninterruptible Power Supply

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) offers guaranteed power protection for connected electronics. When power is interrupted, or fluctuates outside safe levels, a UPS will instantly provide clean battery backup power and surge protection for plugged-in, sensitive equipment.

What is a UPS battery backup?

When power is interrupted, or fluctuates outside safe levels, a UPS will instantly provide clean battery backup power and surge protection for plugged-in, sensitive equipment. APC, our flagship brand, offers UPS options for computers, peripherals, networks, servers, as well as data centres, and facilities. Need help choosing a UPS battery backup?

.

How do I choose a ups for power backup?

The load size, location and criticality of the equipment to be protected are key, as well budgetary considerations, when choosing a UPS for power backup. The three major types of UPS system configurations are online double conversion, line-interactive and offline (also called standby and battery backup).

What makes a reliable backup power system?

The surge of remote work, digital communication, and around-the-clock data processing has heightened the need for reliable backup power solutions. At the heart of most reliable backup systems lies one fundamental component: the uninterruptible power supply battery.

Why is a reliable uninterruptible power supply battery important?

A reliable uninterruptible power supply battery is indispensable in today's

technology-centric world. Whether you manage a small home office or a large enterprise data center, the performance of your UPS battery can make the difference between smooth operations and catastrophic downtime.

Why should you choose Mitsubishi Electric uninterruptible power supplies?

At 99.9995%, Mitsubishi Electric Uninterruptible Power Supplies achieve the highest equipment reliability among all UPS suppliers, ensuring you – and your customers – are protected against downtime 24/7/365.
