Morocco Casablanca New Energy Storage Supporting Project

Overview

In November 2024, Saudi Arabia's ACWA Power and China's Gotion High-tech reached a cooperation agreement to build a 500MW wind farm in Morocco, equipped with a 2GWh battery energy storage facility, with an investment of approximately \$800 million. Is Morocco preparing to launch a 1.6 GW Bess project?

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW.

What is CNGR advanced material doing in Morocco?

CNGR Advanced Material plans to establish a project in Morocco with an annual production of 120,000 tons of ternary precursors and supporting raw material, as well as 60,000 tons of phosphorus-based materials. Yahua Industrial Group and LG Energy Solution will jointly build a plant in Morocco for the production of lithium hydroxide.

Does sunwoda have a battery production base in Morocco?

Additionally, Sunwoda is also setting up a battery production base in Morocco. The number of material manufacturers investing in Morocco is even larger. In April this year, Zhongke Electric planned to invest about \$699 million (US) to implement an integrated base project for producing 100,000 tons/year of anode materials in Morocco.

What are Morocco's Bess projects?

Morocco's 1.6 GW BESS projects represent a key step in its clean energy ambitions. The facilities will electrify key urban areas and firm up the grid. Although the initial focus is in the northwest, the government aims nationwide. Furthermore, the projects align with Morocco's ambitions to generate 52% of its electricity from renewables by 2030.

What's going on with EV batteries in Morocco?

The battery industry chain centered around LFP is forming rapidly. In June this year, the Moroccan government announced that Gotion High-Tech would invest \$1.3 billion (US) to build a gigafactory for EV batteries.

Does CATL have a battery production base in Morocco?

CATL has already planned over 100 GWh of production capacity at its European factories. Additionally, Sunwoda is also setting up a battery production base in Morocco. The number of material manufacturers investing in Morocco is even larger.

Morocco Casablanca New Energy Storage Supporting Project

Efficient
Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

Intelligent
Simple O&M

- IP65 Protection Degree, support outdoor installation
- Smart 11 V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

Flexible
Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (optional): when an arc fault is detected the inverter immediately stops operation
