

## SolarInvert Energy Solutions

# Netherlands Energy Storage Base Project

## Overview

---

Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS) in the port area of Dordrecht. The system will be used for grid stabilization by storing excess energy from renewable sources. The battery, consisting of 144 Fluence cubes will be located on a 6000m<sup>2</sup> site.

What is the biggest Bess project in the Netherlands?

As the largest BESS in the Netherlands and one of the largest energy storage projects in Europe, it sets a new standard for balancing and securing power grids. Mufasa is the largest utility-scale battery storage project in the Netherlands to be fully funded through 100% non-recourse project financing of over EUR 350 million. The closing of Project.

Why does the Netherlands need energy storage?

“As the Dutch energy transition efforts accelerate, the demand for flexibility is growing also. The challenges to our electricity grid have never been greater. Without adequate energy storage, the Netherlands risks increasing grid instability and security of supply risks,” Lion Storage said in its announcement.

Is Lion storage planning a Bess project in the Netherlands?

Image: Lion Storage via LinkedIn Battery energy storage system (BESS) project developer Lion Storage is planning a 364MW/1,457MWh project in the Netherlands for operation in two years' time. Lion Storage announced the Mufasa BESS project last week (16 February), which it said would be the largest BESS in the country once operational in 2026.

Is Lion storage planning a 364mw battery energy storage project in the Netherlands?
