New Delhi Emergency Energy Storage Power Supply

Overview

In a step aimed at ensuring uninterrupted and smooth power supply in the national capital, Delhi Power Minister Ashish Sood on Wednesday said that the government is soon going to dedicate a battery bank to the public, through which the electricity coming from the grid will be stored, and will be utilised during the time of any failure or exigencies. Where is India's first commercial-scale battery energy storage system located?

Sood on Wednesday visited and reviewed the progress of India's first commercially approved and South Asia's largest utility-scale standalone Battery Energy Storage System (BESS) located at Kilokri, South Delhi.

What is India energy storage week (iesw)?

Australia's High Commissioner to India India Energy Storage Week (IESW) is a flagship international conference & exhibition by India Energy Storage Alliance (IESA), will be held from 1st to 5th July 2024.

When is India energy storage week 2025?

We are excited to announce the upcoming India Energy Storage Week (IESW), a premier international conference and exhibition set to take place from July 8th to 10th, 2025, at IICC Yashobhoomi, New Delhi, India, with a dedicated tech tour on July 11th.

Did AAP government fail to strengthen power infrastructure in Delhi?

Criticizing the previous AAP government, Sood alleged that in the past ten years, no concrete steps were taken to strengthen the city's power infrastructure and major companies like DTL (Delhi Transco Limited) were neglected and pushed to the brink of collapse.

What does Sood's energy project mean for India?

Sood termed the project a historic milestone in the energy sector, both for Delhi and the country noting that the system sets a new benchmark in

regulatory and technological innovation across India.

What is uninterruptible power supply (UPS)?

Uninterruptible power supply (UPS) is the last line of defense to ensure the safe and stable operation of the key equipment of the communication base station. There are many stringent requirements on the security and reliability of BMS, and dauntu energy storage has made full preparations.
