# New energy storage lithium battery in Chiang Mai Thailand

## Overview

---

Will China build a large lithium battery plant in Thailand?

Chinese battery manufacturer Eve Energy said it will build a large lithium battery plant in Thailand to better serve its Southeast Asian clients.

Will Thailand become a regional battery manufacturing hub?

The move strengthens Thailand's EV and energy storage supply chain as the country pushes to become a regional manufacturing hub. China's leading lithium battery producer Sunwoda has received approval from Thailand's Board of Investment (BOI) for a THB 50 billion (\$1.5 billion) investment in local battery manufacturing.

Could a sodium-ion battery be a new business opportunity in Thailand?

The Federation of Thai Industries' Renewable Energy Industry Club sees potential in sodium-ion battery (SIB) production as an alternative to lithium-ion batteries. SIBs, made from rock salt, could offer a new business opportunity given Thailand's abundant rock salt reserves.

Why should you invest in EVs in Thailand?

Additionally, those with investment privileges will receive subsidies for investment, research, and personnel training. Amita Technology, a local Thai company and the first lithium-ion battery gigafactory in ASEAN, is committed to completing Thailand's electric vehicle (EV) ecosystem by developing battery manufacturing from upstream to downstream.

Will energy absolute invest in Thailand?

Energy Absolute is in talks with the Board of Investment (BOI) in Thailand to discuss ways to support the company's growth. The BOI is currently holding a roadshow in China to attract leading battery cell manufacturers to invest in Thailand as part of the country's plan to establish itself as an electric vehicle manufacturing hub.

How will Thailand's EV supply chain develop?

Narit Therdsteerasukdi, Secretary-General of the BOI, welcomed the investment as a “ milestone in Thailand’s EV supply chain development.” He emphasized that local battery production will solidify Thailand’s position as a regional EV and hybrid vehicle manufacturing hub while enhancing its global competitiveness.
