# Nordic energy storage system manufacturers

## Overview

---

Who is Nordic batteries?

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, and power grids. Leveraging automated production and innovative technology, they deliver high-performance, safe, and sustainable energy solutions.

What products does Nordic batteries offer?

Nordic Batteries' technology portfolio centers on two main product lines: ePOWER and eENERGY modules. The ePOWER series delivers high-power output for demanding industrial applications, while the eENERGY modules provide extended duration energy storage capabilities.

What makes Nordic batteries a sustainable brand?

Nordic Batteries also emphasizes sustainability in their production methods, using renewable energy sources throughout their manufacturing processes. Their battery designs consider the complete lifecycle, including potential second-life applications and eventual recycling, supporting circular economy principles.

What is the energy storage industry in Sweden?

To sum up, the energy storage industry in Sweden is in a phase of rapid development, and these energy storage companies have taken a significant position in the market through continuous innovation and optimization of solutions. For more information about energy storage companies, visit their official websites.

Who invested in Nordic batteries?

Nordic Batteries has received substantial investment from several Norwegian entities. Kongsberg Innovation, through its Pre-Såkorn Fond, provides

significant financial backing and technical support. Vardar AS, an energy group owned by former Buskerud county municipalities, has invested in the company.

Why should you choose nordnest for a battery energy storage system?

NordNest ensures efficient deployment, maintenance, and management of your BESS, tailored to local requirements and optimized for performance and cost-effectiveness. Local Engineering Team: Experienced in Battery Energy Storage Systems (BESS), ensuring smooth and efficient commissioning.
