Nordic solar energy storage battery

Overview

Nordic Solar A/S announced today the start of construction works on its first battery energy storage system (BESS), a 10-MWh project in Denmark, as part of its strategy to integrate storage capacity into its solar portfolio. Is Nordic solar integrating battery storage into a solar park project?

Operating in 12 European countries, the solar energy company Nordic Solar is investing heavily in integrating battery storage into its portfolio of solar park projects and is now launching the construction of its first project, which is located in Denmark.

Why should I join Nordic solar?

Joining Nordic Solar means building a career with exciting opportunities. You will find a space to grow, learn and engage in a collaborative environment. Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available.

What is a battery energy storage system?

Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available. By storing excess energy, BESS makes it possible to use solar power throughout the day and helps optimise grid infrastructure.
