North America Solar Panel Photovoltaic Power Generation Equipment

Overview

What is the North America solar photovoltaic (PV) market?

The North America Solar Photovoltaic (PV) Market is segmented by Application (Residential, Commercial, and Utility), Deployment (Ground Mounted and Rooftop Solar), Technology (Crystalline Solar and Thin Film), and Geography (United States, Canada, and Mexico).

Who are the key players in the North America solar photovoltaic (PV) market?

The North America Solar Photovoltaic (PV) Market is fragmented. Some of the key players in this market (in particular order) are Hanwha Q Cells Co., Ltd., Canadian Solar Inc., Jinko Solar, First Solar, Inc., and Trina Solar Limited.

Where is solar for America based?

Solar For America (S4A) recently announced plans for a second manufacturing plant in Sumter, South Carolina, bringing them to 2.4GW capacity. S4A chairman Denton Peng said, In April, we announced the addition of our second manufacturing plant in Sumter, South Carolina. This facility will produce American-made solar modules, cells, and wafers.

What is a solar photovoltaic manufacturing map?

The U.S. Solar Photovoltaic Manufacturing Map shows only active manufacturing sites that contribute to the solar photovoltaic supply chain. It details their nameplate capacities, or the full amount of potential output at an existing facility, where known. This does not imply that these facilities produced the amount listed.

Are private companies investing in photovoltaic cells?

Private companies in the United States are expected to invest in Photovoltaic cells to increase their efficiency. New projects are being planned, and constructed solar plants in the country are expected to dominate the market in North America.

Why do solar PV manufacturers invest in research and development?

Solar PV manufacturers invest in research and development activities to improve the efficiency, performance, and durability of the solar PV modules and components. Collaborations between various solar PV manufacturers and local partners will support the market expansion into new geographic regions and segments.
