

**SolarInvert Energy Solutions**

# **Ottawa Electric Uninterruptible Power Supply**

## Overview

---

Which is the best uninterruptible power supply manufacturer?

With 20 years of R&D experience in UPS industry, SCU, one of the biggest uninterruptible power supply manufacturers, provides 6KVA to 900KVA UPS products that are highest levels of availability, reliability and efficiency. SCU UPS products cover applications from IT rooms to large data centers and industrial plant and so on.

How does an uninterruptible power supply work?

The uninterruptible power supplies have e.g. an adjustable maximum buffer time to protect the battery and the unit protects the battery from going into a deep discharge. Draining the battery all the way down can damage it in a very short period of time, especially if this occurs multiple times.

What is a continuous power supply (UPS)?

UPS is the short version of "uninterruptible power supply". In many applications a continuous power supply is important because power fluctuations and outages can cause damage to control equipment as well as unexpected down time. This situation can lead to a loss of productivity and revenue.

How does ups work if a power supply fails?

Normally UPS converts AC power from Utility to DC for charging the connected battery. When the utility power fails, UPS electrical device works like backup power, and UPS will switch to battery mode, inverts DC to AC power and continue to run the equipment.

What makes Puls a reliable power supply?

Efficient, compact and reliable DC-UPS from PULS ensure highest system availability. Our uninterruptible power supplies are available with capacitor storage or VRLA batteries. The DC-UPS with integrated electrochemical double

layer capacitors are fully maintenance free and guarantee an uninterrupted power supply for periods measured in seconds.

What is a DC-UPS with external batteries?

The DC-UPS with external VRLA batteries feature the PULS' 1-Battery-Concept: This means each battery is individually charged and monitored, which avoids the need for matched batteries and ensures longest battery life. What is a UPS module?

UPS is the short version of "uninterruptible power supply".
