

## SolarInvert Energy Solutions

# Outdoor energy storage power supply price in Cordoba Argentina

## Overview

---

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

What does Argentina's 1.3 GW battery storage tender mean for Latin America?

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Can energy storage be a reliable source of energy?

As the opportunity to build energy storage as a reliable source in grids and to decarbonize becomes critical on a global stage, the oversubscribed tender launched by Argentina demonstrates the demand for scalable and bankable C&I energy storage systems projects, as well as the efficiency of collaborating with the government in their realization.

What is Argentina doing to increase hydrocarbon production?

The Vaca Muerta shale oil and gas field is the main contributor to the hydrocarbon production expansion. Argentina is pushing China to finance its nuclear development, including the 1.2 GW Atucha III. The Energy Secretariat ("Secretaría de Energía de la Nación"), under the Ministry of Economy, is in charge of developing the energy policy.
