

## SolarInvert Energy Solutions

# Outdoor solar light awning

## Overview

---

Why should you buy a solar awning?

Enjoy a sheltered outdoor oasis with protection from the sun, UV rays and light rain. Stay cool on scorching summer days, reducing temperatures by up to 20° for refreshing outdoor relaxation Embrace green living with the industry's first solar-powered smart awning with internal Wi-Fi connectivity.

Why do you need a solar-powered retractable awning?

With your beautiful outdoor space left abandoned, there is wasted potential for gatherings, after-work relaxation and enjoying a breath of fresh air with the family. That's why we created the Furrion Lumina solar-powered retractable awning — your solution to designing your outdoor paradise.

What is a furrion Lumina retractable outdoor awning?

With the Furrion Lumina retractable outdoor awning for homes, patios and decks, you can say goodbye to the sweltering heat and fears of UV exposure. We're revolutionizing your outdoor experience, turning that sizzling deck or patio into a cool, shaded haven and transforming your outdoor space into a functional, comfortable extension of your home.

What makes furrion solar powered awnings different?

Furrion powered awnings stand out from the competition with our cutting-edge solar-powered technology. Unlike other outdoor awning options that require expensive electrical work to install outlets or hardwiring, our solar-powered awnings harness the green energy of the sun, allowing you to embrace sustainability with flexible installation options.

How do I control my patio awning?

Benefit from a built-in wind sensor for enhanced functionality without the additional cost, and connect your patio awning to your preferred voice assistant for hands-free control through the Furrion AwnCommand™ app.

Using the Furrion AwnCommand™ app, you can control your powered awning from right beneath the awning, or anywhere in the world.

Are retractable home awnings worth it?

Plus, retractable home awnings are more affordable and less time-consuming to install compared to permanent structures. Our motorized retractable awnings are designed to withstand the elements, featuring designer Sunbrella fabrics created specifically for outdoor shade.
