Palau Battery Outdoor Power Supply

Overview

What is the Palau solar PV & battery storage project?

The Palau Solar PV + Battery Storage Project will provide up to 23,000 MWh of clean and renewable power to Palau, representing more than 20 percent of its annual energy demand, to help achieve its renewable energy target of 45 percent by 2025.

When did Palau launch its first solar and battery energy storage system?

Palau on June 3 launched its first solar and battery energy storage system (BESS) project on Friday. The project was made possible by Renewable company Alternergy Holdings Corp. and its subsidiary Solar Pacific Energy Corporation.

How will solar energy be produced in Palau?

Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage system facility. Extensive safeguards to protect Palau's pristine environment SPEC did not leave any stone unturned to protect the pristine Palau ecosystem.

Does Palau rely on fossil fuels?

As a small island developing state, the Republic of Palau sought to wean itself off its dependence on fossil fuel for power, which accounts for 99.7% of the country's power generation. To address this issue, Palau invited Solar Pacific Energy Corporation (SPEC), Alternergy's solar developer, to develop a clean, renewable energy source.

Can I use my power plugs in Palau?

In Palau, power plugs and sockets (outlets) of types A and B are used. For more information on compatibility with your specific power plugs, select your country of residence at the top of the page. The standard voltage is 120 V at a frequency of 60 Hz. We don't sell power plug adapters.

How much does Palau solar project cost?

In a press release from the company, it said the Palau solar project boasts a capacity of 15.3 MWp solar PV and 12.9 MWh BESS, making it one of the most significant foreign direct investments in the country. The project cost USD29 million, the venture marks a remarkable milestone for Alternergy.
