

## Overview

---

How much money will the Peruvian government invest?

Through two different auctions, the Peruvian government expects to mobilize investments of around \$2 billion. Peru's Minister of Energy and Mines, Eduardo González Toro. From pv magazine Latam.

Will Peru build a green hydrogen plant?

The governor of Peru's Arequipa region, Rohel Sánchez Sánchez, has announced plans for the construction of the country's inaugural green hydrogen plant. Phelan Green Energy, a South African company, will spearhead the project with an investment totaling approximately \$2.5 billion.

Will a green hydrogen plant revolutionize Peru's energy landscape?

The forthcoming green hydrogen facility, slated to occupy a sprawling 4,000-hectare site, aims to revolutionize Peru's energy landscape. According to official statements, the plant will cater to both domestic demand and international markets, particularly along the Pacific coast.

Will solar power lower energy prices in Peru?

"We are going to be able to lower energy prices and take that difference to the most humble homes," he stated during a press conference. Peru held its last and fourth renewable energy auction in 2016, when it awarded 185 MW of solar PV projects at an average price of US\$48/MWh E, with the winners being Enel Green Power Peru and Enersur.

How many MW does Peru have?

According to the International Renewable Energy Agency, Peru had an installed capacity of 331 MW at the end of 2020, most of which was deployed before 2017.
