

## **SolarInvert Energy Solutions**

# **Photovoltaic energy storage integrated machine production company**

## Overview

---

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

Who is Zee energy storage?

ZOE Energy Storage is a Tier 1 provider of integrated energy storage products and system solutions. Our flagship ESS - Z BOX series has obtained European most stringent safety and quality certifications, enabling global deployment with proven reliability and technological excellence.

Who is Shanghai Zee energy storage technology?

Shanghai ZOE Energy Storage Technology Co. Ltd., established in 2022, is dedicated to providing global users with safe and efficient energy storage product system solutions. The company is headquartered in Shanghai, with joint venture office in Suzhou, R&D center in Changzhou and a fully automated energy storage production center in Fuzhou.

Who is Jinko Solar?

Jinko Solar Co., Ltd. (referred to as "JinkoSolar," stock code: 688223) is a globally leading PV module manufacturer and energy storage system integrator.

What is BMS + industrial and commercial energy storage inverter?

The complete set of energy control solutions of "BMS + industrial and commercial energy storage inverter" is suitable for industrial parks, backup power, photovoltaic storage, wind storage and other application scenarios to ensure the safety of industrial and commercial battery systems. Safe operation and system performance optimization.

Who is Zoe energy storage?

Focused on domestic market, obtained 350MW national bidding solar project, ranked first among private enterprises in Guizhou Province. Approved for 7 photovoltaic and 2 wind projects, total 1.92GW installation, leading nationally. ZOE Energy Storage established, with an R&D center that developed liquid cooling ESS and planned a intelligent factory.
