

## SolarInvert Energy Solutions

# Photovoltaic energy storage investment factory company

## Overview

---

Why should you invest in a photovoltaic & energy storage system?

The systems are safe, stable, and designed for long-term durability and superior performance. The company also offers one-stop EPC services and investment solutions for photovoltaic + energy storage power stations, optimizing energy efficiency and reducing operational costs.

Where are solar panels made?

Now we can provide solar panels, battery packs, energy storage batteries and other products, a complete solar-powered energy storage solution. The production base is located in Shiyan, Hubei, covering an area of 130000 square meters, with a plant area of 40000 square meters and a total planned investment of 600 million.

What is a photovoltaic building company?

It aims to become a professional manufacturer of photovoltaic buildings that has a comprehensive layout in the markets of industrial and commercial buildings as well as residential buildings, responds to energy structure reforms, and promotes the development of green and zero-carbon buildings.

What is a photovoltaic Institute?

We position the institute as a platform for global photovoltaic technology exchange and cooperation that promotes the dissemination and application of photovoltaic technology worldwide, laying a solid foundation for realizing the vision - Risen Energy Grows Worldwide for Hundreds of Years.

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

What is the global photovoltaic research institute?

Based on our strategic objectives, we established the Global Photovoltaic Research Institute in November 2023, primarily responsible for integrated technology research, product development, product iteration, and technology management.
