Photovoltaic module companies exporting overseas

Overview

What are China's top six photovoltaic module manufacturers?

Overseas exports have become the major source of revenue for China's top six photovoltaic module manufacturers, which are also the world's top six, including Shanghai-based solar power energy company Jinko Solar, LONGi Green Energy Technology and Trina Solar, according to news portal Jiemian.com.

Which countries export photovoltaic modules?

According to the China Photovoltaic Industry Association, the Netherlands, Brazil and India saw a sharp increase in market share, which respectively account for 24.3 percent, 12.2 percent and 10.3 percent of those modules exported from China. The European market saw a high growth momentum during the first quarter of this year.

Why are Chinese photovoltaic module exports increasing?

According to Luo, the increase in Chinese photovoltaic module exports during the first three months, mostly to Europe, the US and India, also reflects their ambitions to further develop renewable energy while accelerating the process of carbon neutrality.

Who makes photovoltaic modules in South Korea?

3. Analysis of the Top 10 Global Photovoltaic Module Manufacturers in 2025 Hanwha Q CELLS, the core energy enterprise of South Korea's Hanwha Group—one of the country's top ten conglomerates—has a well-established presence in module manufacturing, R&D, and global market operations.

Can Southeast Asia export PV modules to the US?

As one of the crucial hubs supplying the U.S. PV demand, Southeast Asia still faces the most obstacles in exporting modules to the U.S. under the Uyghur Forced Labor Prevention Act (UFLPA) due to polysilicon traceability issues.

Using non-Xinjiang or non-China polysilicon has become necessary for modules attempting to cross the U.S. border.

How did China's solar module exports perform in the first quarter?

[Photo/Xinhua] China's solar module exports rose to 41.3 gigawatts of capacity in the first quarter, up 109 percent compared with the same period of the previous year despite the COVID-19 pandemic, according to the General Administration of Customs.
