Photovoltaic solar energy in container houses in Manchester UK

Overview

Who is Solarus energy Manchester?

At Solarus Energy Manchester, we deliver end-to-end renewable energy solutions—from solar PV installations to EV charging points—for homes and businesses across Manchester. Trust our certified team for seamless setup, maintenance, and long-term energy savings.

Who are Manchester renewables?

Here at Manchester Renewables we supply and fit all of Manchester with renewable energy products, from Solar PV Systems, EV Charging Points, Battery Storage and Heat Pumps. Our expert teams are all MCS & RECC accredited, providing you with the highest quality installations, using the best and most efficient systems on the market today.

What is energy for a sustainable and environmentally friendly Manchester?

Energy for a sustainable and environmentally friendly Manchester. We are committed to helping Manchester transition to zero-carbon lifestyles and help households save energy. The use of solar panels is one of the best ways of reducing the need for fossil fuels and any form of non-renewable energy.

Which solar power systems are best for container conversions?

Solar Power Systems for Container Conversions. Fitting or DIY. Sunstore's off-grid container systems are ideal for delivering sustainable power to remote areas, off-grid sites or for emergency backup. They come as two types.

What types of EV chargers do Manchester renewables provide?

At Manchester Renewables we provide all types of EV Chargers, supplying and fitting all models from domestic 7.2KW to commercial 3 phase 22KW chargers. The Battery Storage allows you to store the excess energy your system is producing. This means it isn't going back on the grid during the day and is ready to use when required.

Should I use battery storage with a solar PV installation?

The Battery Storage allows you to store the excess energy your system is producing. This means it isn't going back on the grid during the day and is ready to use when required. We would always recommend Battery Storage with a Solar PV installation. This optimises the installation and the energy it's providing.
