

SolarInvert Energy Solutions

Podgorica power station generator

12.8V 100Ah

Overview

Where is electricity produced in Montenegro?

The majority of electricity in Montenegro is primarily produced at the Pljevlja coal-fired Thermal Power Plant and the Perucica and Piva Hydropower Plants\.

The core activities of the majority state-owned Electrical Power Company of Montenegro (EPCG) are electricity generation, transmission, distribution, and supply.

Will Podgorica build a solar power plant at Velje Brdo?

According to plans, Podgorica is building a solar power plant at Velje Brdo with an installed power capacity of at least 50 MW.

Does Montenegro have hydro power plants?

Montenegro has the potential to develop additional hydro power plants given its abundance of rivers and streams, as mentioned in the Agreement of the Electro-Energetic Community for Southeastern Europe signed on January 1, 2015. The country's energy market was opened to competitors.

Where are solar power plants located in Montenegro?

Montenegro is rich in solar radiation, particularly in the southern part, especially around the cities of Bar and Ulcinj, and in the area around the capital city of Podgorica. Solar power plants are located in these areas due to the high solar radiation.

Does Montenegro have a gas distribution network?

Montenegro currently does not have a gas distribution network. The Minister of Economy announced the government's intention to begin importing U.S. liquefied natural gas (LNG) via the Port of Bar in March 2020.

Is a solar power plant being built in Ulcinj?

A consortium including Fortum, the state-owned energy company EPCG, and Sterling & Wilson International Solar FZCO won a public tender to build a solar power plant in Ulcinj. They have proposed building 250 MW of solar power in Ulcinj.
