

SolarInvert Energy Solutions

Poland high frequency uninterruptible power supply

Overview

Who offers UPS (uninterruptible power supplies)?

Siltec offers UPS (Uninterruptible Power Supplies) from renowned global companies, such as ABB and Delta Electronics. We provide our clients with the latest models of devices dedicated for both small, medium and large Data Centers, as well as office, commercial, technical and industrial environments.

What is uninterruptible power supply system?

Uninterruptible power supply system is provided for consumers supply with uninterruptible DC and AC. Uninterruptible power supply system consists of: matching transformers. Uninterruptible power supply system generates input and output three-phase line voltages 220, 380 V AC to power range from 15 up to 60 kVA according to Customer's request.

What are the key factors affecting the power supply industry in Poland?

When exploring the Power Supply industry in Poland, several key considerations are essential for comprehensive understanding. The regulatory landscape is crucial, as Poland adheres to EU directives, which influence energy production standards, emissions, and renewable energy targets.

How a power supply is supplied?

Power can be supplied from one or two inputs. In case of one input, if voltage at the input is available, power is transferred either via double conversion channel or via bypass channel from input to output. When input voltage is disconnected, load continues to be supplied from accumulator battery and voltage source inverter.
