

## SolarInvert Energy Solutions

# Portable Energy Storage in Auckland New Zealand

## Overview

---

Where can I rely on a containerised energy storage solution?

Today, we are also a name you can rely on for safe battery storage. Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over New Zealand and further afield (we have a footprint in 90+ countries).

Who can use our rentable battery storage containers?

Private individuals and businesses can use our rentable battery storage containers in any setting where they can physically be installed. Benefits include: Energy independence: break free from the grid and power your home or workplace with clean, reliable energy that you control.

Can a battery energy storage solution be used for site power requirements?

As Lithium Iron Phosphate (LFP) battery technology has evolved and costs have reduced, a strong business case has emerged for deploying a battery energy storage solution (BESS or UPS) for various site power requirements.

Are power bank solar batteries made in New Zealand?

Embrace Energy Independence with Power Bank – Crafted and Tested in New Zealand! Local Production: Power Bank's solar batteries are proudly crafted and tested right here in New Zealand. By choosing Power Bank, you not only support local businesses but also reduce your carbon footprint and contribute to the growth of our community.

How Titan's mobile energy storage solutions work?

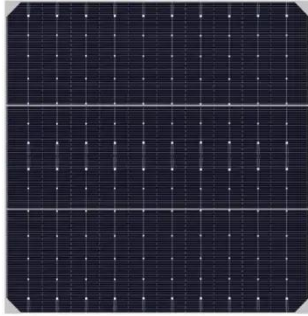

In a world of uncertainties, TITAN's mobile energy storage solutions provide reliable power where and when it is needed. Functioning like mini power stations, our battery storage containers (also known as BESS systems) load power from renewable energy sources into lithium-ion batteries, where it is kept until ready for future use.

Who are Titan battery energy storage systems?

Which is where TITAN's battery energy storage systems come in. TITAN are veterans of the shipping container market, and over the past 35 years have become a leading provider of secure, robust containers for shipping, storage, refrigeration and offshore use. Today, we are also a name you can rely on for safe battery storage.
