Prado 220v power supply and inverter

Overview

How useful is the 220V AC socket in the Prado 150?

Thread: 220V AC socket in the Prado 150 - how useful is it?

220V AC socket in the Prado 150 - how useful is it?

It's a 220V AC socket that is rated for 100W. and it seems like its not particularly useful. Supply obviously comes from the vehicles single battery, and it only gets power when the vehicle is running.

Can a 240V inverter be plugged into a Prado?

The 240v ac OUT in the Prado is probably only a small capacity 12v to 240vac inverter which most likely isn't a FULL SINE WAVE device and so what you plug into it has to be able to accept the "so called" modified sine wave power coming out of that base.

Is there a 12V DC socket in my Prado?

Most gear like tire air compressors or camping fridges run on 12V in any rate, yet there is no 12V DC socket in the back of this Prado that I can find. Also a 12V socket would have been better as I suppose their are less losses than converting the 12V to 220V.

Can a 150 series Prado have a second battery?

The best method to install a second battery in a 150 series Prado is to use a 12V DC to DC charger. This is because the alternators in the new vehicles to day have variable voltage output. So they will not charge a second battery fully. Especially if it is an AGM.

How much power does a Prado fridge need?

The specifics of the fridge say it needs 120 watts, 240volts and 0.5 amps. Does anyone know if the power to the rear of the Prado can handle running a

fridge like that?

And if it would run the battery down or handle it well?

I'd certainly not want to need a jump start after bush coming in the middle of nowhere. thanks! Joe Avid PP Poster!.

What is a good rear outlet spec for a Prado 150?

From what I've read on Prado forums the rear outlet spec for the 150 is 220V, ~0.45A, 100W. Thanks Bazooka. Probably a bit skinny for the OP's application. Some fridges will happily run directly from that outlet but you'd need to test yours. That would save the lithium/battery box for your camp.
