# Prague Energy Storage Mobile Charging Station

## Overview

---

Czech energy supplier and charge point operator ČEZ has installed a fast-charging station with battery storage in Prague. It is the first of its kind in the Czech Republic. How many charging stations are there in Prague?

There are currently 46 rapid charging stations in the city of Prague. To find them, go to the charging station map, enter the location, and set at least 43kW in the "Minimum charging power" filter. How much does a charging session cost in Prague?

the charging rate depends on the network you use to charge your electric vehicle.

Who makes the first EV charging station in the Czech Republic?

It is the first of its kind in the Czech Republic. The charging station was supplied by Kreisel Electric from Austria. The charging station with the model name Chimero 180 from Kreisel Electric can charge EVs with up to 180 kW and is intended for locations with insufficient grid capacity.

Why do we need a charging station in the Czech Republic?

"We believe that this type of charging station will contribute to developing the charging infrastructure in the Czech Republic thanks to its ability to compensate for the lack of electricity quickly and without taking up much space.

Which charging networks are available in Prague?

The main charging networks in Prague are: PRE, EnBW, and ČEZ E Mobilita. , on the details page of a charging station on the network, and click on "Chargemap Pass Rates". \*Only the prices of charging stations that are compatible with the the Chargemap Pass are displayed.

How many charging points does Prague have?

The city of Prague has 193 charging points. Join +2M registered members to find the best charging points in Prague and the surrounding area! Register for free! Charging made easy on more than 1600 networks in Europe with just 1 card! Register for free! Where can I charge my electric car in Prague?
