

SolarInvert Energy Solutions

Prague Flow Battery Energy Storage Company

Overview

Who is Pinflow energy storage?

Pinflow Energy Storage, established in 2017, emerged from the scientific expertise of the New Technologies-Research Centre at the University of West Bohemia. The company specializes in developing and manufacturing vanadium redox flow battery components and systems for stationary energy storage applications.

What is a redox flow battery?

Redox flow batteries ranging from high-end cells for laboratory research to the tailor-developed solutions for stabilizing and management of renewable energy sources, we provide tools of store and release energy with impact on safety, efficiency and durability.

Why do we need a charging station in the Czech Republic?

“We believe that this type of charging station will contribute to developing the charging infrastructure in the Czech Republic thanks to its ability to compensate for the lack of electricity quickly and without taking up much space.

Who makes the first EV charging station in the Czech Republic?

It is the first of its kind in the Czech Republic. The charging station was supplied by Kreisel Electric from Austria. The charging station with the model name Chimero 180 from Kreisel Electric can charge EVs with up to 180 kW and is intended for locations with insufficient grid capacity.

Prague Flow Battery Energy Storage Company

Flow batteries, the forgotten energy storage device

Redox flow batteries have a reputation of being second best. Less energy intensive and slower to charge and discharge than their lithium-ion cousins, they fail to meet the performance ...
