Price of 25v lithium battery pack

Overview

Where can I buy a lithium ion battery?

Himax Battery, as a professional wholesale battery manufacturer, offers a wide range of lithium ion batteries, lithium iron phosphate batteries, nickel metal hydride batteries, and Lipo batteries to meet your different needs with the best ex-factory price and thoughtful customized service.

What is a 12V lithium ion battery pack?

A 12V lithium ion battery pack is a battery pack made up of three or four lithium batteries connected in series and several lithium batteries connected in parallel. This configuration allows the capacity of a 12V lithium battery to be customized.

What is a lithium ion battery?

Lithium-ion (Li-ion) batteries are a type of rechargeable battery that uses lithium ions as the charge carriers in its electrochemical reactions. They are widely used in various applications due to their high energy density, lightweight construction, and long lifespan.

Are lithium ion batteries safe?

Lithium ion batteries are lightweight, have a high energy density, and offer a longer lifespan compared to other types of batteries. When used correctly, lithium batteries are generally safe. However, mishandling or damage can lead to safety hazards such as overheating or fire.

Can a Himax LiFePO₄ battery be connected in parallel?

HIMAX LiFePO₄ battery can be connected in parallel and in series for larger capacity and voltage.
