Price of lithium battery for household energy storage in Mozambique

Overview

Who provides the lithium commodity price?

We provide the lithium commodity price for the following: Fastmarkets' mission is to meet the market's data requirements honestly and independently, acting with integrity and care to ensure that the trust and confidence placed in the reliability of our pricing methodologies is maintained.

Why should you trade with Iosco-compliant lithium price data?

Trade with lithium price data that is unbiased, IOSCO-compliant and widely used across the energy commodity markets. Our lithium prices are market-reflective, assessing both the buy- and sell-side of transactions.

What is a lithium futures contract?

The new lithium futures [contract] will provide our customers with another tool for managing the price risk associated with the manufacturing of electric vehicles. Get long-term clarity and market intelligence in the critical lithium market Understand the battery material demands of today and plan for tomorrow Trade on market-reflective prices.

Are Lithium prices market-reflective?

Our lithium prices are market-reflective, assessing both the buy- and sell-side of transactions. You need transparency and clarity in these volatile markets and we recognize the importance of being clear about our lithium price assessment and index process. Our independently audited lithium pricing process aligns with core IOSCO principles.
