Price of photovoltaic panels installed in Central Asia

Overview

Will Asia-Pacific solar photovoltaic (PV) market grow by 2028?

Asia-Pacific Solar Photovoltaic (PV) Market is poised to grow at a CAGR of 10.38% by 2028. Declining cost of solar PV module prices and growing distributed solar power generation drive the industry.

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

How is the Asia-Pacific solar photovoltaic market segmented?

The Asia-Pacific Solar Photovoltaic (PV) Market is segmented by product type, end-user, deployment, and geography. By product type, the market is segmented by thin film, multi-crystalline silicon, and monocrystalline silicon. By end-user, the market is segmented into residential, commercial, and utility.

Will ground-mounted solar power plant dominate Asia-Pacific solar photovoltaic (PV) market?

The ground-mounted solar power plant will consist of 7128 ground-mounted solar panels and ten inverters and is expected to get commissioned by 2023. Owing to the above points, the ground-mounted segment is expected to dominate the Asia-Pacific Solar Photovoltaic (PV) Market during the forecast period.

Which country has the largest solar PV market in the world?

China is the largest market for solar PV across the globe, with a cumulative installed capacity that accounted for more than 40% of the global market in 2021. The solar power share in China's renewable power generation mix was

recorded as 282 million kilowatts at the end of 2021.

Who are the key players in the Asia-Pacific solar photovoltaic market?

The Asia-Pacific Solar Photovoltaic (PV) Market is fragmented. Some of the key players in this market (not in a particular order) include JA Solar Holdings Co., Trina Solar Ltd, Adani Green Energy Ltd., Azure Power Global Limited, and First Solar Inc.
