

## SolarInvert Energy Solutions

# Price of polysilicon photovoltaic panels in Brasilia

## Overview

---

Why are solar panels so expensive in Brazil?

Despite global overcapacity, several factors may contribute to a slight increase in solar panel prices in Brazil, with shipping costs and quotas for fiscal exemptions on imported PV modules playing a key role. From pv magazine Brazil Brazil imported around 10.1 GW of PV modules between January and May, according to PV InfoLink.

How much does non Xinjiang polysilicon cost?

Currently, non-Xinjiang polysilicon with traceability data generally carries a quoted premium of RMB 3–5/kg. Polysilicon prices in dollar terms are prices for polysilicon with non-China origins in dollar terms, not translated from RMB prices.

How much do bifacial solar modules cost?

Modules Prices this week: The mainstream concluded price for 182mm bifacial dual-glass TOPCon modules is RMB 0.67/W, and 210mm bifacial HJT modules at RMB 0.72/W. Supply-demand Dynamics: With September approaching, ground-mounted solar PV project procurement and stocking activities are gradually starting, increasing demand for solar modules.

Which solar panel and polysilicon pricing report adheres to Iosco reporting requirements?

The only solar panel and polysilicon pricing report that adheres to IOSCO reporting requirements. The OPIS Solar Weekly Report is the first and only solar panel and polysilicon pricing report to follow the International Organization of Securities Commissions' (IOSCO) requirements for fair and transparent pricing.

How much is a solar module worth in Brazil?

This capacity, worth \$1.2 billion, exceeds the \$1.13 billion import quota set by

the Brazilian authorities for exemption from 9.6% import duties on solar modules from January to June 2024. The next round of tax-free import quotas is set at \$1.014 billion from July 2024 to June 2025 and may be exhausted quickly.

How many solar modules does Brazil import?

From pv magazine Brazil Brazil imported around 10.1 GW of PV modules between January and May, according to PV InfoLink. This capacity, worth \$1.2 billion, exceeds the \$1.13 billion import quota set by the Brazilian authorities for exemption from 9.6% import duties on solar modules from January to June 2024.
